English for Medical Purposes 2024

Course lecturer: Jerome Tessuto

Course Overview

The English Language Chair of the Department of Precision Medicine will be holding the **4th English for Medical Purposes Course** designed for candidates enrolled at the **Doctoral Degrees** and **Specialist Schools** listed above. This is an **teacher-led course only**. It is expertly designed to give candidates the specialist English language knowledge and skills they need to communicate in academic and professional medical settings along with an orientation to the practical approaches to discourse- and genre-informed theory relevant to **English for Medical Purposes**.

Course Schedule

The course will run throughout February 2024 on Mondays or Tuesdays.

Scheduled dates and times:

Tuesday 6 February 2024
16.30 -19.30

Monday 19 February 2024
14.30 -17.30
