

Relatore e titolo	Date
Prof. Silvia Turrone, (Univ. Bologna) "The human microbiome in health and disease"	April 12, 15.30
Dott.ssa Margherita Borriello (RTDA Biochimica) "Uremic Toxins in CKD patients"	April 21, 10.30
Prof. Egidio D'Angelo (Deputy Leader Dept of Brain and Behavioral Sciences, University of Pavia) "In-silico models and digital twins: Technologies for computer simulation and visualization of biomedical processes and design of computational models for big data analyses"	May 8, 15.00
Dott.ssa Iliaria Guadagni, Medical Affairs Inflammation and Immunology - Pfizer "Overexpression of the jak/stat pathway in ulcerative colitis: small molecule therapy"	May 11, 10.00
Dott.ssa. Rita Polito RTD-B Medicina Clinica e Sperimentale Università di Foggia "Obesity and aging: adiponectin role in brain protection"	May 19, 10.30
Prof. Istvan Bitter Semmelweis University, Budapest "Survival and mortality in schizophrenia"	May 26, 10.00
Prof. Judit Balazs Faculty of Education and Psychology, Budapest "ADHD and its comorbidities with focus on suicidality"	May 26, ore 15.00
Prof Drozdostoy Stoyanov Full Professor Medical University of Plovdiv "Perspectives to translate clinical self-assessment scales into neuroimaging findings"	June 12, 15:00
Dott.ssa Amalia Luce (RTD-A gruppo Caraglia) "Towards Precision Medicine: from biomarker discovery to novel therapies"	June 28, 10.00
Prof. Francesco Saccà (Neurologia Federico II) "Innovative therapies in neuroimmunological diseases"	July 14, 10.00
Dott.ssa Adele Mitrotti, AOU Policlinico Bari "Biomarkers in rare kidney diseases"	July 19, 14.00
Dott.ssa Lucia Scisciola Ricercatore Vanvitelli "Epigenetics and aging"	September 7, 15.00
Dott.ssa Fabiana Zingone (RTDB UOC Gastroenterologia Università di Padova) "Quantifying the burden of the gluten free diet: then, now and future"	September 26, 17.00
Dott.ssa A. Iervolino (RTDA Nefrologia) "In vivo and in vitro experimental models to study rare kidney diseases"	September 27, 14.00
Dott.ssa G. Capolongo (RTDB Nefrologia) "Novel therapies in polycystic kidney disease (ADPKD)"	October 3, 11.00

Prof. Antonietta Canina (Faculty of Medicine and Health Sciences, Montreal Neurological Institute and Hospital) "Brain imaging techniques for clinical and research applications"	October 9, 15.00-18.00
Prof. Angela Marie Abbatecola Dip Scienze Umane, Sociali e della Salute, Università Cassino e del Lazio Meridionale "The role of nutrition in cognition"	October 12, 14.00
Prof.ssa Maria Teresa Vietri (Prof. Associato Vanvitelli) "Molecular bases of hereditary tumors"	October 10, 10.30
Dott.ssa Stefania Lama Post Doc Protective effect of Limoncella Apple Polyphenol Extract in colitis-induced liver injury	October 17, 10.00
Dott.ssa Lucia Scisciola Ricercatore Vanvitelli "MiRNA and cardiovascular diseases"	October 19, 15.00
Dott.ssa GM Giordano (RTD-A Psichiatria) "Biopsychosocial model of psychiatric disorders: focus on gene-environment interactions"	October 24, 10.00
Dott.ssa Stefania Lama Post Doc Cardioprotective effects of Taurisol® in Cardiomyoblast H9c2-Glucose and Trimethylamine N-Oxide Treatment <i>via De Novo</i> Sphingolipid Synthesis	November 7, 10.00
Dottori Nicola Alessio (RTD Biologia Molecolare Vanvitelli) e Giulia Maria Giordano (RTD-A Psichiatria Vanvitelli) "Innovative cellular models for neuropsychiatric disorders: current findings and future approaches"	November 14, 10.00
Dott.ssa Stefania Lama Post doc "Human CNS barrier-forming organoids with cerebrospinal fluid production"	November 21, 10.00
Prof. Giuseppe Matarese, University of Naples "Federico II" N "Immunometabolism and autoimmunity"	November, 23
Dott. Katia Pane Ricercatore IRCCS SYNLAB SDN "Role of gut brain in health and diseases and its diagnostic potential"	November 28, 10.00
Dott.ssa Giulia Maria Giordano (RTD-A Vanvitelli) Biological treatments of psychiatric disorders	November 29, 10.00
Prof. P. Sansone "Terapie innovative del dolore"	To be defined
"Epstein-Barr virus and multiple sclerosis"	To be defined
International Webinar on "Biopsychosocial model in medicine"	To be defined
Neurowebinars on clinical and experimental neurosciences	To be defined
"Machine learning". (Organized by the University)	13,20,27 giugno 14:00-16:00 4,11,18,25 luglio 14:00-16:00
Medical statistics with R (Organized by the University)	15, 18, 22, 29 maggio 14:30-16:30

1, 5, 8 giugno 14:30-
16:30

Agency for the promotion of European Research (APRE) – Courses calendar	
"Horizon Europe Pillar I"	March 23 10.00-13.00
"Horizon Europe Pillar II"	April 14 10.00-13.00
"Horizon Europe Pillar III"	May 29 10.00-13.00
"How to write a MSCA proposal"	June 7
"How to write an Infrastructure proposal "	June 15
"How to write an ERC proposal"	July 3
"Open Science"	September 11
"General Data Protection Regulation"	October 16
