# SPECIAL GUEST LECTURE

PhD in Experimental, Clinical and Medical Sciences

31 March 2015 - h. 15:00

**DAVID WIDMER**

Grant Manager  
Research and Technology  
Management Memorial Sloan Kettering Cancer Center

## HOW TO WRITE A SUCCESSFUL RESEARCH PROPOSAL

Graduated at the Rutgers University, Dept. Psychology (NJ), Dr. Widmer has worked on Eph-Ephrin interaction and then moved to Switzerland at the Institute of Biochemistry of University of Fribourg where he completed his PhD working on genes differentially expressed in the brain after cocaine treatment.

He has also published several papers about history of sciences on International journals.

Currently he is Grant Manager at the office of Research and Technology Management of the Memorial Sloan Kettering Cancer Center, one of the most prestigious private cancer centers in the world.
